

POWER BOARDS SURGE PROTECTORS

Professional Super-Protection Power Board 8 Way PB80

PB80Bk

- The ideal board to protect your Computer and Phone/ADSL connection
- This board has an massive surge protection
 - 3444 Joule protection, using massive ganged MOV's
 - Maximum spike current 144,000A
 - Maximum spike voltage 6KV
 - Full line protection L-N, N-E, L-E
 - Clamping voltage 710V
 - Response time < 1 Nanosecond

- LED displays advise
 - Protection circuit is working
 - Board is correctly earthed, or protection cannot work
- Four of the outlets are widely spaced for power packs
- Noise protection capacitor 0.47 μ F
- Coax cable line protection (F type connection)
- Phone/ADSL line protection
 - 3444 Joule protection, using massive ganged MOV's
 - Maximum spike current 144,000A
 - Maximum spike voltage 6KV
- Cord length 1.8m
